PADI Discover Scuba Diving - Participant Statement

Event Version 07/07/12

Please read the following paragraphs carefully and fill in all blanks before signing.

This statement, which includes a Medical Questionnaire, Discover Scuba Diving Safe Practices Statement and a Statement of Risks and Liability, informs you of some potential risks involved in scuba diving and of the conduct required of you during the PADI Discover Scuba Diving programme. Your signature is required to participate in the programme. If you are a minor, you must have the Participant Statement (which includes and acknowledges the Medical Questionnaire, the Discover Scuba Diving Safe Practices and the Statement of Risks and Liability) signed by your parent or guardian.

You will also need to learn from the instructor the important safety rules regarding breathing and equalisation while scuba diving. Improper use of scuba equipment can result in serious injury or death. You must be thoroughly instructed in its use under the direct supervision of a qualified instructor to use it safely.

PADI Medical Questionnaire

Scuba diving is an exciting and demanding activity. To scuba dive safely, you must not be extremely overweight or out of condition. Diving can be strenuous under certain conditions. Your respiratory and circulatory systems must be in good health. All body air spaces must be normal and healthy. A person with heart trouble, a current cold or congestion, epilepsy, asthma, a severe medical problem, or who is under the influence of alcohol or drugs, should not dive. If taking medication, consult your doctor before participating in this programme.

The purpose of this medical history questionnaire is to find out if you should be examined by a doctor before participating in recreational scuba diving. A positive response to a question does not necessarily disqualify you from diving. A positive response means that there is a pre-existing condition that may affect your safety while diving and you must seek the advice of a physician.

Please answer the following questions on your past and present medical history with a YES or NO. If you are not sure, answer YES. If any of these items apply to you, we must request that you consult with a physician prior to participating in scuba diving. Your instructor will supply you with a PADI Medical Statement and Guidelines for Recreational Scuba Diver's Physical Examination to take to a physician.

 Do you currently have an ear infection?
 Do you have a history of ear disease, hearing loss or problems with balance?
 Do you have a history of ear or sinus surgery?
 Are you currently suffering from a cold, congestion, sinusitis or bronchitis?
 Do you have a history of respiratory problems, severe attacks of hayfever or allergies, or lung disease?
Have you had a collapsed lung (pneumothorax) or history of chest surgery?
 Do you have active asthma or history of emphysema or tuberculosis?
 Are you currently taking medication that carries a warning about any
impairment of your physical or mental abilities?
 Do you have behavioural health problems or a nervous system disorder?
 Are you or could you be pregnant?
 Do you have a history of colostomy?
 Do you have a history of heart disease or heart attack, heart surgery or blood vessel surgery?
 Do you have a history of high blood pressure, angina, or take medication to control blood pressure
 Are you over 45 and have a family history of heart attack or stroke?
 Do you have a history of bleeding or other blood disorders?
 Do you have a history of diabetes?
 Do you have a history of seizures, blackouts or fainting, convulsions or epilepsy or take medications to prevent them?
 Do you have a history of back, arm or leg problems following an injury, fracture or surgery?
 Do you have a history of fear of closed or open spaces or panic attacks (claustrophobia or agoraphobia)?
*

Flying After Diving Recommendations

- 1) For single dives within the no decompression limits, a minimum pre-flight surface interval of 12 hours is suggested.
- 2) For repetitive dives and/or multi-day dives within the no decompression limits, a minimum pre-flight surface interval of 18 hours is suggested.
 - 3) For dives requiring decompression stops, a minimum pre-flight surface interval greater than 18 hours is suggested.

Discover Scuba Diving Safe Diving Practices Statement

Statement of Risks and Liability

These practices have been compiled for your review and acknowledgment and are intended to increase your comfort and safety in diving.

- I understand that upon completing the Discover Scuba Diving programme, I will not be qualified to dive independently without a certified professional guiding
 me.
- To equalize my ears and sinus air spaces, I will need to blow gently against pinched nostrils every few feet/one metre while descending.
- If I have discomfort in my ears or sinuses during descent, I should stop my descent and alert my instructor.
- Underwater, I should breathe slowly, deeply, continuously and never hold my breath.
- I should respect underwater life and not touch, tease or harass an underwater organism since it may harm me and/or I may harm it.
- I can seek further training from any PADI Dive Centre, Resort and Instructor to become certified to dive without a professional guide
